

Folie 2

Inhalt

 Informationen zu den Herausforderungen der aktuellen Physiotherapie...

Handout

3. Vorstellung der **Potenziale** der Physiotherapie anhand des Physio2Future-Modells... **2.** Informationen über die Konstruktion und die Ziele des Physio2Future-Modells...

4. Vorstellung **neuer Erkenntnisse** zur Zukunft der Physiotherapie

© Andreas A

Folie 3

Hintergrund

Ein Blick aus der Zukunft auf die Gegenwart:

"Die Physiotherapie wird in fünf Jahren zu einer eigenständigen und wertvollen Disziplin im Gesundheitswesen herangewachsen sein, die dafür evidenzbasierte Methoden genutzt hat und deren Entwicklung von sich aus gefördert hat. Die heute gesehenen Potenziale werden dann entfaltet sein – für die Individuen und für das gesamte Konstrukt 'Physiotherapie'."

Gemeint ist damit also weit mehr als nur ein Tool, die Vergütung und dergleichen mehr.

Folie 14

Take-home Message

- Autonomie, Nachhaltigkeit, Evidenz und Humanzentrierung = höchste Relevanz für die verantwortungsvolle Physiotherapie der Zukunft (im Kontext des Physio2Future- Modells)
- Digitalisierung, z.B. eLearning und eHealth, könnte helfen, berufsspezifische und patientenspezifische Prozesse zu beschleunigen - noch unklar

- Voraussetzung für die Weiterentwicklung des Modells = eine Einzigartigkeit einer Dimension
- Zukunft: Weitere Konsensstudien mit Expert*innengruppen, die für die Zukunft der Verantwortungsvollen Physiotherapie relevant sind, z.B. Dozierende

Folie 23

Aufgaben

Bitte bildet **zweier Gruppen** und überlegt euch **zwei** für euch wichtige **Aspekte** zu den **beiden Dimensionen**, die ich euch zuteile! **Kritisiert dabei gerne**!

Bitte kontaktieren Sie mich, um die unzensierte Version zu erhalten!
